

NEW
EXCLUSIVE SERVICE

Smart Track

FOLLOW YOUR PALLETS **IN REALTIME !**

UNI  PEX
Smart Distributor

Always seeking to serve you better, UNIPEX proposes to its clients a new positioning service of our current order in realtime. Installed by us, this «Internet Of Thing » will track the GPS position of your order each hour.

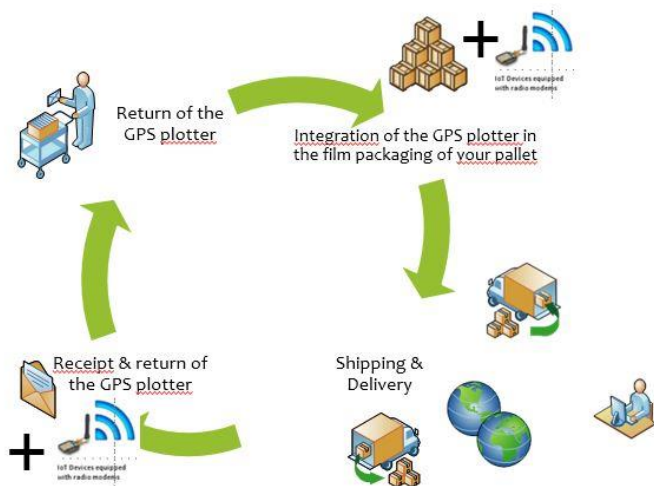

Our main objectif : keeping track records of your deliveries thanks to this positioning tool.

An express ordering to be delivered as soon as possible ?

Smart Track follows your pallets in realtime !

Principle

Benefits

- This service is provided to our preferred client,
- There is nothing you need to do,
- 100% implementation by Unipex,
- Tracking of GPS position in charge of Unipex,
- Tracking Report available,
- Personalised satisfaction survey.

Only one intervention required : please return the device in the pre-addressed envelope

GPS Plotter

- Smaller than a SmartPhone,
- Directly included in your pallet with a pre-addressed envelope for returning the devise,
- Sending GPS position each hour,
- European coverage,
- 1 GPS plotter = 1 delivery.

Steps to implementation

1. Please give us **our storekeeper's contact** that we can inform him of this new service.
2. Once our delivery has been received, please return the devise in the pre-addressed envelope, near the delivery note.
3. Exchange together by phone to give us your satisfaction.
